Iris	Bearded Iris	Purple	Now	D	Dark purple	May, Aug	Large velvety dark purple blooms in May with smaller rebloom in August	5	3'	1.5'	ave	Sun/ PS

Knipfobia Tysonii	Red Hot Poker		July	Semi-E	Orange	late summer	A rarely offered species, this late summer flowering beauty is a difficult one to overlook in the garden as it is a real giant, one of the very biggest of all kniphofias at 4.5' tall.	8	5'	3'	ave	Sun/PS
Lavatera Olbia	Tree Mallow	Rosea	May		Pink	early summer-fall	Bright pink hollyhock like flowers on a semi-evergreen bush from early summer - fall. Cut back to 12" in spring.	7	4'-7'	5'	ave. Must be well drained.	Sun
Lavendula	Lavendar	Hidcote	May/June	E	Purple	June-Aug	Evergreen shrub with fragrant silver-gray foliage and deep purple flower spikes June-Aug.	5	2'	2'	ave	Sun
Lilium Martagon	Turks Cap	Pink	June/July	D	Pink	Summer	Turks cap lilies can take more shade than other lilies making them valuable in light woodland settings - they prefer sun or light shade. Bountiful bright pink 2-4" blooms in early-mid summer - lovely in light shade or sun with ferns and hostas.	3	3'-6'	2'	ave. Must be well drained.	Sun/PS
Lilium nepalense			July/Aug	D	Cream/burgundy	June/July	Forms new bulbs in different spots than the original plant. In a few years plants will form loose colonies with younger and older bulbs. Beautiful rare lily with incredible large "recurved" flowers - creamy lime with burgundy center - that bloom in June/July	7	2-4'		ave. Must be well drained.	PS
Lilium tigrinum	Tiger Lily		May/June	D	Orange	July/Aug	Exotic bright & showy orange flowers covered in black spots and blooming in July/Aug.	3	4'	1'	ave. Must be well drained.	Sun
Malva Sylvestris	Mallow	Mauritiana	Now		Dark violet	June-Sept	Nicknamed "Tree Mallow", M. sylvestris mauritiana has foliage that closely resembles the Hollyhock, being large and coarse in texture. 3 Abundant 3 inch wide, rich purple flowers with plum veins from June-Sept.	4	3-4'	2-3'	ave. Must be well drained.	Sun
Malva Sylvestris	Mallow	Zebrina	Now	D	Pink/magenta	June-Sept	Abundance of 2" soft pink flowers with striking, raspberry-purple veins June-Sept	4	3-4'	2-3'	ave. Must be well drained.	Sun
Michauxia Campanuloides	Michaux's Bellflower		Now.	D	White	early summer-Aug	Numerous curious, lantern-like buds open into a huge candelabra of branching stems holding fantastic, pure white, passion-flower-like blooms, beginning in early summer and continuing until August if dead-headed.	5	5'	3'	ave	Sun
Monarda	Bee Balm	Panorama Red	Now	D	Scarlet	June-July	A real drama queen covered in brilliant tufted scarlet blooms in June-July.	3	3'	2'	ave	Sun
Nepeta	Catmint	Six Hills Giant	Now	D	Purple	May-Sept	One of the hardiest, tallest, and longest blooming Catmint. Lovely light purple flowers on vertical stems May-Sept.	4	2-3'	2-3'	ave/dry	Sun/PS
Papaver Orientale	Oriental Poppy	Brilliant	Now	D	scarlet-orange	May-June	Large crepe-paper like scarlet orange petals around dark centers in May-June.	3	2.5'	1.5'	ave	Sun
Papaver Orientale	Oriental Poppy	Fruit Punch	Now	D	Red, pink, purple	May-June	Large crepe-paper like petals in rich red, pink, and purple with dark centers in May-June.	3	2.5'	1.5'	ave	Sun
Papaver Orientale	Oriental Poppy	Princess Victoria Louise	Now	D	Salmon-pink	May-June	Large crepe-paper like salmon pink petals around dark centers in May-June.	3	2.5'	1.5'	ave	Sun
Papaver Orientale	Oriental Poppy	Royal Wedding	Now	D	White	May-June	Large crepe-paper like silky white petals around dark centers in May-June.	3	2.5'	1.5'	ave	Sun
Papaver Somniferum	Poppy	Black Swan	Now	D	Burgundy-black	Summer-early fall	A profusion of cut petals in burgundy to almost black makes 'Black Swan' a must-have flower for cottage gardens, at home among annual larkspurs and early summer bloomers. Annual but will self-seed for new plants next year.	Annual	2'	1'	ave-moist	Sun
Paulownia Tomentosa			Now		Purple	May	Commonly called royal paulownia, empress tree or princess tree, is native to China. It is a fast-growing, deciduous tree that is primarily grown for its profuse spring bloom of foxglove-like flowers and its huge leaves. This is a tree - to 30' tall.	5	30-40'	30'	Ave	Sun/ PS

Penstemon	Beard-tongue	Twizzle Blue	Now	D	Blue	Jul-Oct	Masses of striking blue flowers from Jul-Oct. Long-blooming. Plant and top dress with 1/4" gravel.	5	3'	2'	ave - must be well drained	Sun

Primula Japonica	Candelabra Primula	Postford White	April		white	May/June	Not the common short primula - this candelabra variety has beautiful white flowers from late spring to early summer. This group of primrose is always a standout in the woodland garden because of their tiered, stately flowers.	5	1.5'	1'	Moist	Part shade
Rehmannia	Chinese Foxglove	Rufus	Now	D	Pink	May-Sept	Very unique. Tubular Foxglove-like flowers (but no relation) are Rosy pink with yellow/red dotted throats - long blooming from May - Sept	7	2-3'	1.5'	ave	Sun/ PS
Ribes Sang.	Red Flowering Current		Now	D	Red-pink	April-May	Our beautiful native shrub - the red flowering current drips with red-pink flowers in spring. One of our first natives to bloom and an important food source for pollinators.	5	10'	5'	ave	Sun/PS
Ricinus Communis	Castor Bean	Carmecita Pink	Now		Pink	Jun-Oct	Seen in botanical gardens in England, but rarely in the US, this sizeable architectural plant has huge smoky blue-green leaves and upright tresses of pink bristly seed pods that follow the small flowers. Quick growing in warm summer weather, it becomes the focal point of an garden bed. Seeds extremely toxic, keep away from children and pets at all times. Poisonous	9	6'	3'	ave	Sun

Ricinus Communis	Castor Bean	New Zealand	May		purple seed pods	Jun-Oct	Seen in botanical gardens in England, but rarely in the US, this sizeable architectural plant has huge inky purple leaves and seed pods that follow the small flowers. Quick growing in warm summer weather, it becomes the focal point of an garden bed. Seeds extremely toxic, keep away from children and pets at all times. Poisonous.	9	6-10'	3'	ave	Sun
Romneya Coulteri	Tree Poppy		May/Jun			late spring - summer	Vigorous and bushy shrub that blooms spring to summer and fades nearly back to ground in fall. Huge poppy - 8" wide white flowers with bright yellow centers and lovely apricot smell. Makes a spectacular flowering shrub.	4	6-8'	6-8'	low/ summer dry/ well drained	Sun/PS
Rudbeckia	Gloriosa Daisy	Cherry Brandy	Now	D	Burgundy-red	Jul - Frost	Long-blooming deep ruby-red flowers from July until frost !	5	2'	15"	ave	Sun
Salvia	Sage	Caradonna	April		Purple	Jun-Sept	Long blooming salvia with deep purple flower spikes from	4	2'	1.5'	ave/ dry	Sun
Salvia	Sage	May Night	April	D	Deep purple-blue	May-Aug	Deepest purple/blue of the sages and long blooming from May-Aug.	4	2'	1.5'	ave-dry	Sun
Scabiosa columbaria	Pincushion	Pincushion Pink	April		pink	Jun-Sept	Masses of pincushion shaped pink flowers over a long season - Jun-Sept - great for front of the border color.	5	1'	1'	ave	Sun/PS
Sedum		Autumn Joy	Now	E	Pink/ cranberry	Sept-Nov	Lovely long lasting blooms start out pink and turn to cranberry in the fall. Basal foliage is evergreen. Spent flowers should be cut down close to the base in fall.	3	2'	1.5'	ave-dry	Sun
Sedum		Belgian Chocolate	Now				Unusual cultivar. Masses of flowers, varying from crimson red to chocolate brown, from late summer through to late autumn. The shiny foliage varies from purple-brown to almost black, whilst the fragrant flowers attract bees and butterflies.					
Silene Asterias			July		Crimson	Jun-July	Strong upright "drumsticks" begin flowering in late Spring. This rarely offered perennial Bulgarian species is unlike any of the other Silenes in cultivation, with tidy grey-green rosettes of smooth shiny leaves and deeply-scented globular heads composed of tubular, intensely maroon, crimson flowers, with amazing blue anthers and dark wine red bracts, all making an amazing colour combination.	5	1.5"	5"	ave-moist	Sun
Verbascum Nigrum	Mullein	Album	Now		White	Jul-Aug	With flower spikes reaching over 3-½ ft. tall, 'Album' is truly dramatic. Its many white flowers are tinged with crimson at the base of each petal and accented by golden orange stamens. The large basal leaves are coarse, deep green and textured. Their undulating margins, and often their stems, are tinted a deep burgundy color.	5	4'	1.5'	ave/low	Sun/PS
Verbascum Phoeniceum	Mullein	Rosetta	April/May		Pink	May-Aug	Pink flower spikes 3' tall in late spring bring an early vertical accent to the garden. The large basal leaves are coarse, deep green and textured.	6	3'	1.5'	ave/low	Sun/PS
Verbascum Phoeniceum	Mullein	Violetta	April/May		White	May-Aug	Violet flower spikes 3' tall in late spring bring an early vertical element to the garden. The large basal leaves are coarse, deep green and textured.	6	3'	1.5'	ave/low	Sun/PS
Perovskia atriplicifolia	Russian Sage	Taiga	April		Purple	Jul-Sept	Tall airy purple spikes from Jul-Sep. Gorgeous as a vertical accent. Finely textured foliage combines beautifully with many shrubs and large leaved plants.		3.5'	3'	ave/low	Sun
Sedum	Sedum	Green Spruce	Now	E	Yellow	July-Sept	Low-growing vivid evergreen foliage with yellow flowers in July. Needs well-draining soil.	3	3"	18"	ave-dry. Must be well drained.	Sun

Sedum	Sedum	Purple Frost	Now	E	Yellow	Summer	Blue foliage with purple tones that deepen in colder weather. Yellow flowers in summer. Needs well-draining soil.	3	6"	1'	ave-dry. Must be well drained.	Sun
Sedum	Sedum	Making Progress	Now	E	Yellow	June	Deep green foliage in spring and summer, turning bright red in fall and winter with yellow blooms in June. Needs well-draining soil.	3	8"	1-2'	ave-dry. Must be well drained.	Sun
